Go to your file explorer and click on This PC

In the next screen, type in Zoom in the search bar.

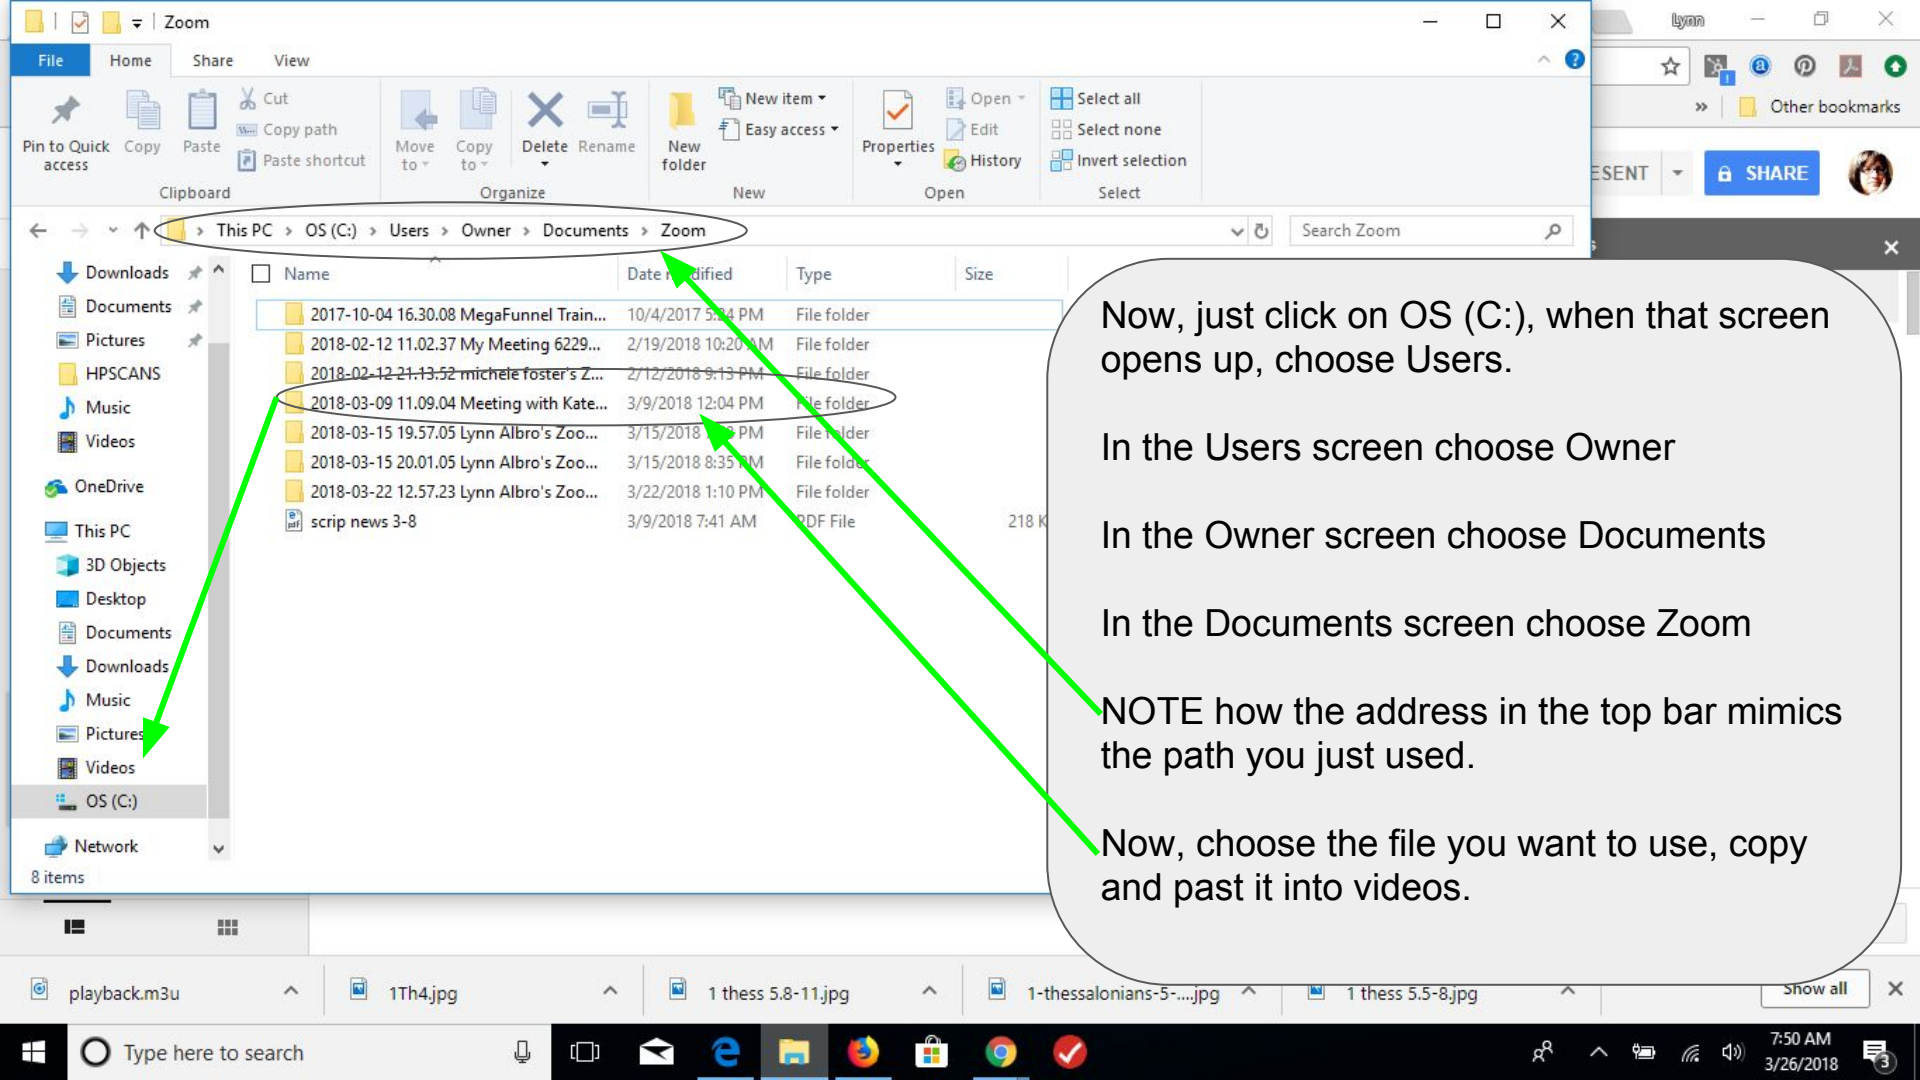

You should see a file that looks something like this:

c:\users\owner\documents\zoom

This is a map to get to your zoom recordings.

Write it down.

Now, just click on OS (C:), when that screen opens up, choose Users.

In the Users screen choose Owner

In the Owner screen choose Documents

In the Documents screen choose Zoom

NOTE how the address in the top bar mimics the path you just used.

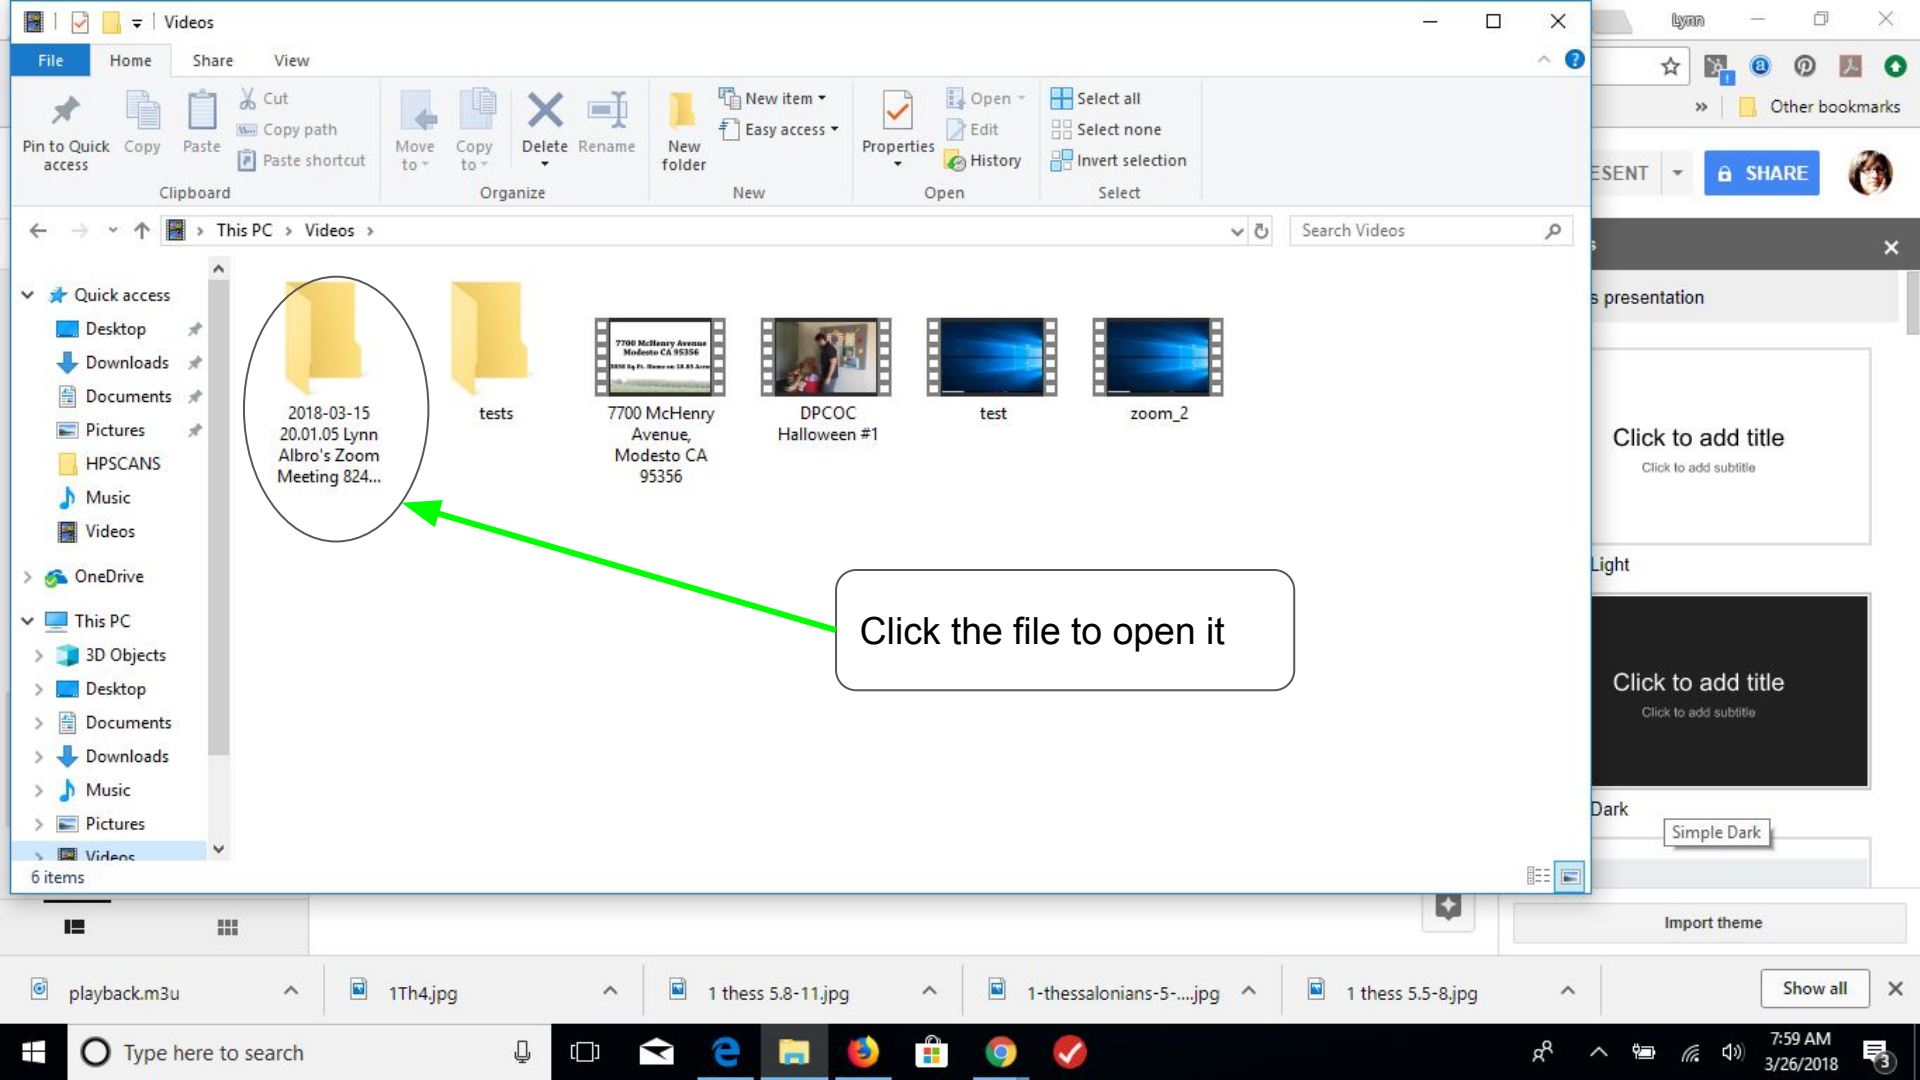

Now, choose the file you want to use, copy and past it into videos.

Type here to search

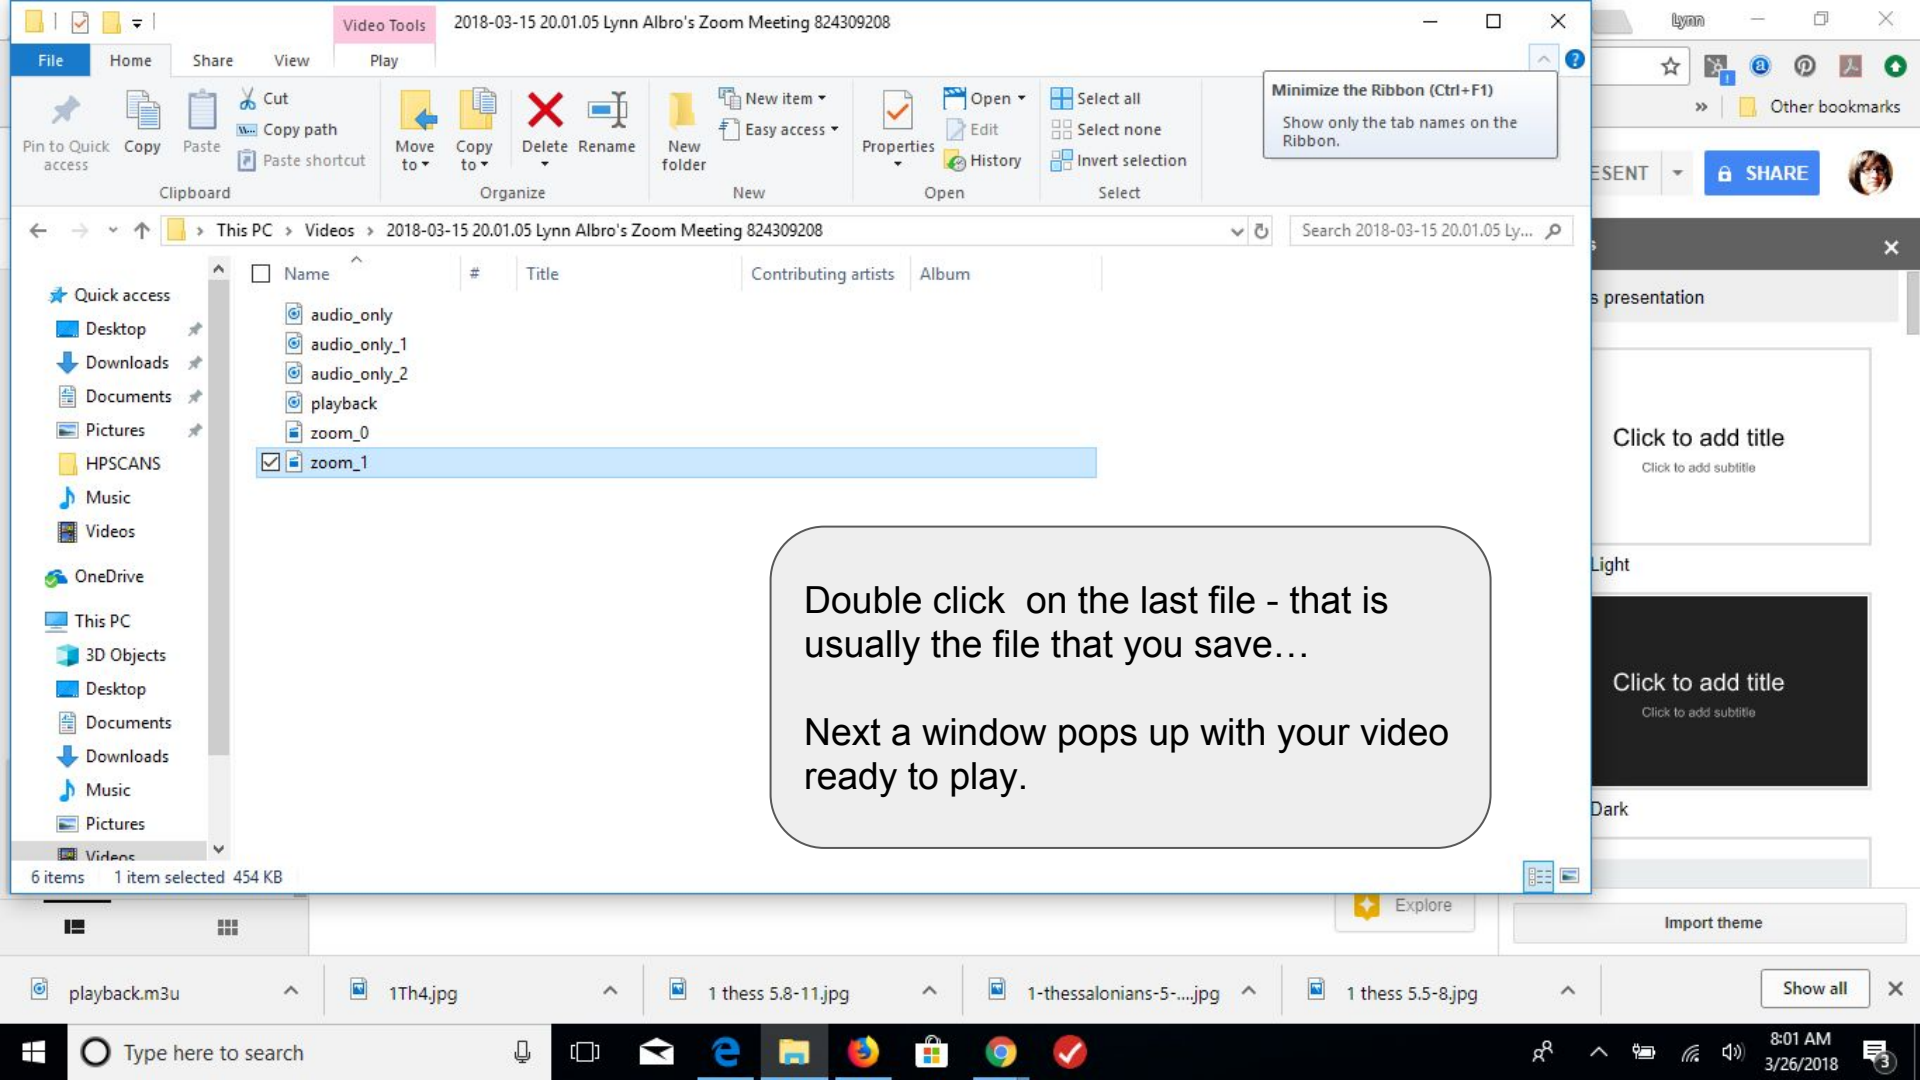

Taskbar: Start, Search, File Explorer, Chrome, Edge, etc.

System tray: 7:50 AM, 3/26/2018, Network, Volume, etc.

Click the file to open it

Minimize the Ribbon (Ctrl+F1)

Show only the tab names on the Ribbon.

Double click on the last file - that is usually the file that you save...

Next a window pops up with your video ready to play.

Click to add title

Click to add subtitle

Click to add title

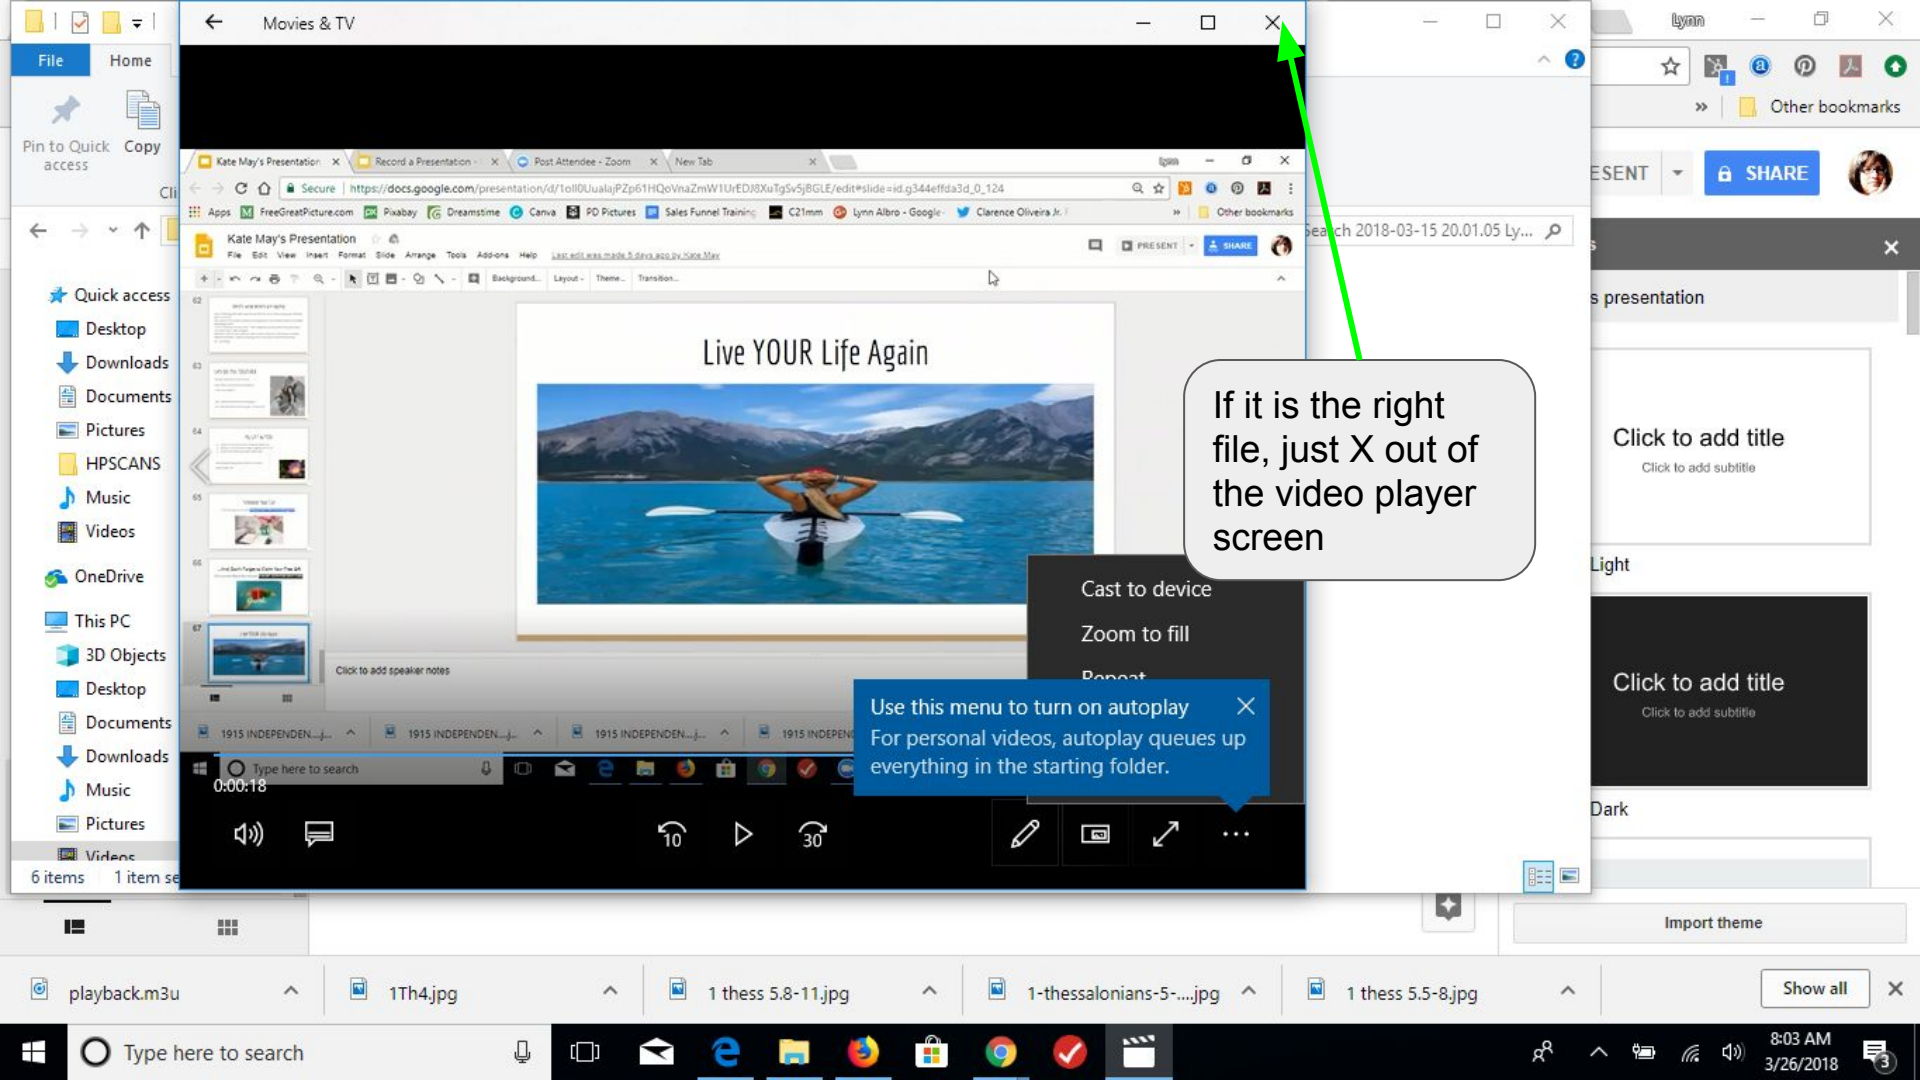

Click to add subtitle

X

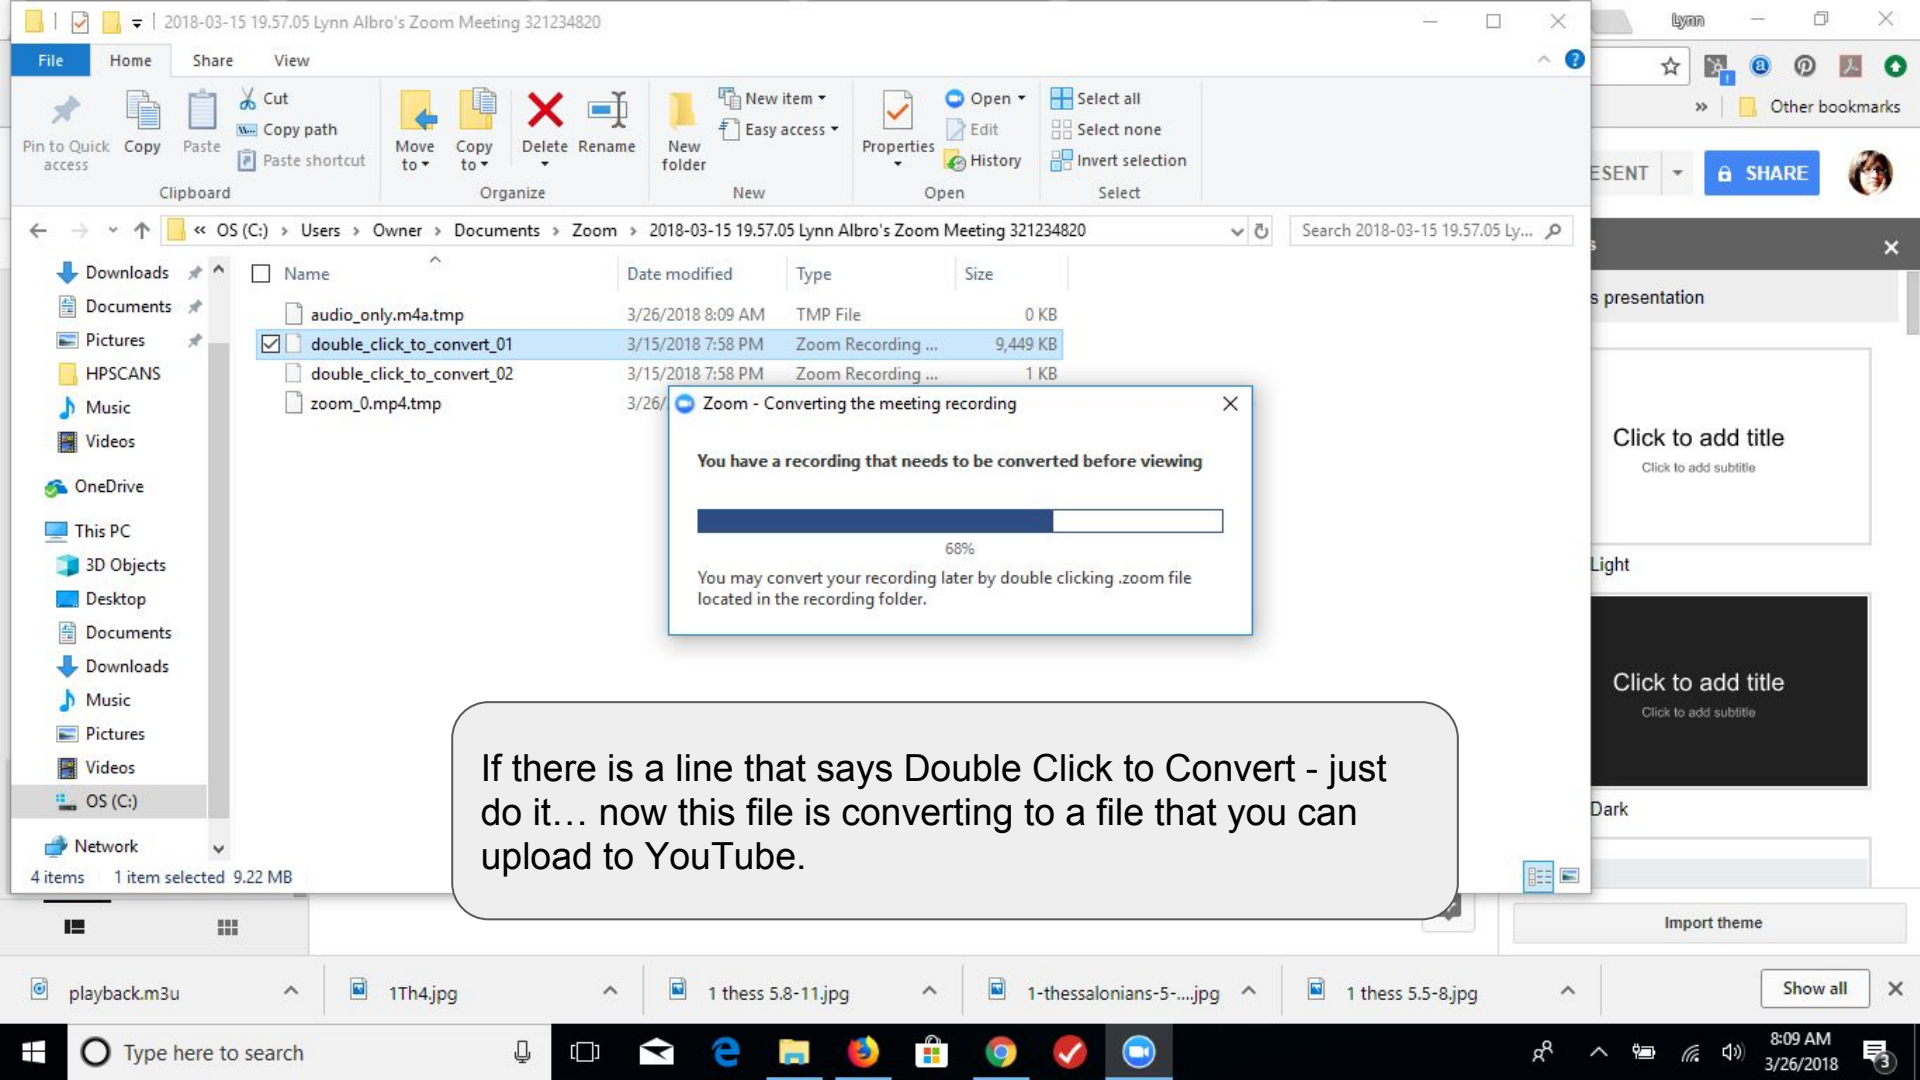

8:01 AM

3/26/2018

If it is the right file, just X out of the video player screen

Use this menu to turn on autoplay
For personal videos, autoplay queues up everything in the starting folder.

Zoom - Converting the meeting recording

You have a recording that needs to be converted before viewing

68%

You may convert your recording later by double clicking .zoom file located in the recording folder.

If there is a line that says Double Click to Convert - just do it... now this file is converting to a file that you can upload to YouTube.

You might want to delete the file you just worked on because now you have a new converted file you can upload to YouTube.
