Post creation options: Photo, Video, Live, Story

Go to your FB page and get ready to put up a post.

1. Click on Share a Photo or Video

Image Text Check

Upload an image to determine how much text is in your ad image. If the proportion of text to image is too high, your ads may not reach its full audience.

We make exceptions for certain kinds of products being advertised. Visit our [Help Center](#) to learn about exceptions, see examples of images with text, and get more guidance.

Upload

 Image Text: OK
Your ad will run normally.

1. Go to your images and choose one.
2. Test that image at FB's text overlay tool to make sure that the image has less than 20% text. Go to: https://www.facebook.com/ad/tools/text_overlay
3. Just click on Upload and add your image and you will get a response within seconds.

NOTE: If there is more than 20% text, FB will either reject to ad completely, or rank it so low you will not get clicks
